

Storm iPad display stand Assembly Instructions

Connect the underside of the circular steel base to one end of the aluminium post

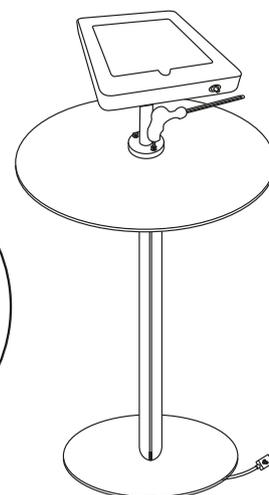

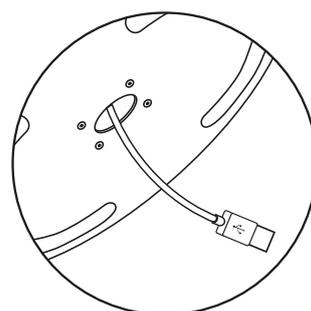

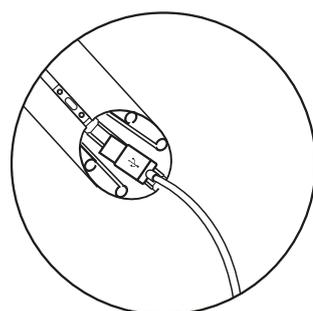

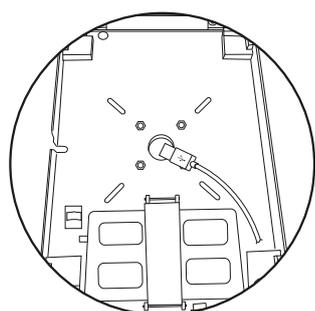

Connect the circular acrylic table to the other end of the aluminium post

Unlock and open the fascia of the tablet enclosure, feed the power cable through the circular slot in the rear plate, then down through the aluminium post, until it appears on the underside of the floor base.

Connect the tablet enclosure to the top of the aluminium post.

Open the fascia of the tablet enclosure.

Storm iPad display stand Assembly Instructions

Open the fascia of the tablet enclosure.

Attach the power cable to the tablet then carefully position it in the enclosure.

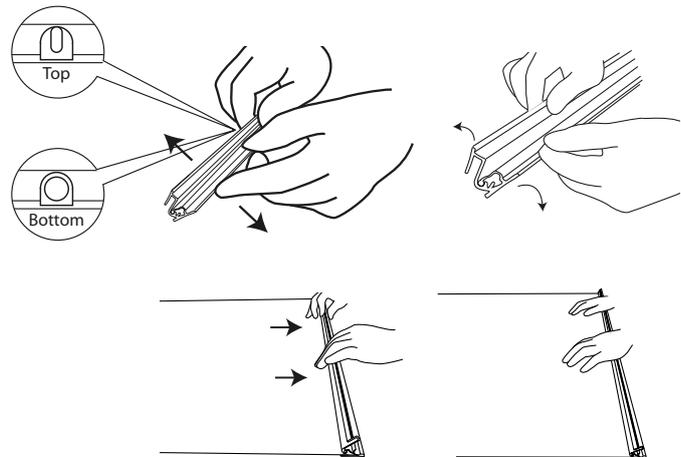

Close the fascia and depress the lock button to securely lock the fascia.

Open the two snap style graphic rails.

Load the narrow ends of the graphic into each snap rail.

Gently depress both snap rails until shut.

The assembly is now complete and ready to use.
